

PROGRAM NAME: **Irrigated Lands Regulatory Program**

COALITION NAME: Sacramento Valley Water Quality Coalition SUBWATERSHED NAME: Dixon/Solano RCD Water Quality Coalition	INMP - Irrigation and Nitrogen Management Plan Self-Certification High (N) Nitrogen Vulnerability	SECP - Sediment and Erosion Control Plan
How to find out if my parcel requires this?	DMT-PARCELS page	DMT-PARCELS page
If required, what will the DMT show me?	TRUE	TRUE
If NOT required, what will the DMT show me?	FALSE	FALSE
What to do if required for my parcel?	Hire a CCA with the appropriate training or take the online INMP self-certification course and pass the test with a 70% or higher.	Hire an Engineer or complete the online SECP self-certification course and pass the test with a 70% or higher.
What to do if NOT required for my parcel?	Check the box on the INMP certification page of the DMT, "my parcels are low vulnerability and do not require certification."	Acknowledge you understand the requirement on the SECP page.
Once I am self-certified, will CEUs- Continuing Education Units be required?	YES- Required to maintain self-certification. 3 CEUs every 3 years If the CEUs are not completed within the timeframe, your certificate will expire.	NO- Not required. Once self-certified, the certificate is valid indefinitely.
Where do I take CEUs to maintain self-certification?	The events can only be approved by CDFA for CEUs. The Coalition will send annual INMP self-certification course information. Visit the CDFA Continuing Education page for approved events to fulfill the requirement. https://www.cdfa.ca.gov/is/ffldrs/frep/continuing_education.html	N/A
Who keeps track of the training and CEUs?	CDFA keeps track of this information. To check status of certification and CEUs, contact: Frep@cdfa.ca.gov Enter initial certification date and CEUs into the DMT on the Outreach and Training page. NOTE: It is OK if you do not take CEUs every year and need to answer the question with "I did not participate in a self-certification or continuing education course this year". Remember you have 3 years to complete the CEUs.	Enter your certification date on the SECP page of the DMT. The Coalition has a list of all of their members that are self-certified.
How often will it be required to certify the INMP worksheet or write the SECP?	Annually. You must certify your INMP worksheet every year on all parcels that are high N vulnerability. EXCEPTION: Not required for Pasture-No Nitrogen applied.	One and done! Revise plan if the operations changes.
